TypeScript PDF Generation Test

Generated for: TypeScript Developer

Buffer Support Test

This PDF was generated using the new TypeScript version with buffer support!

Key Benefits:

- Type-safe PDF generation
- Perfect for APIs and web services
- No temporary files needed
- Direct HTTP response streaming
- Memory efficient for small to medium PDFs

User Information

Name: TypeScript Developer

Email: typescript@example.com

Role: Senior Developer

Second Page

This content appears on a new page, demonstrating the addNewPage() function works with buffer output too!

TypeScript Features

- Type checking for all function parameters
- IntelliSense and code completion
- Better documentation with JSDoc
- Improved error handling
